The park protects an exceptional marine area. More than 1,800 wild species have been sighted within its boundaries, ranging from microscopic algae to the gigantic blue whale. The St. Lawrence beluga whale is its most famous resident.

PAY A VISIT TO WHALE COUNTRY
The Marine Park is one of the best places in the world to observe whales. Watch them break the surface and listen for their powerful blows from established coastal sites or from aboard tour-operator vessels.

A TREAT ON LAND AND AT SEA
You will be unequivocally charmed by the Park’s scenic beauty. Climb into a kayak or set sail. Take a cruise up the Fjord or to the islands of the St. Lawrence. Admire the colours of the seafloor while diving or on a high-definition screen. Visit Discovery Network shore-based sites: take advantage of spectacular viewpoints, roam hiking trails or exhibits and get caught up in fascinating tales.
WHEREVER YOU GO IN THE MARINE PARK, RESPECT THESE RULES:

Yield the right-of-way

MAXIMUM 400 METRES
25 KNOTS (29 mph)

OTHER WHALERS 200 METRES

To learn more, visit marinepark.qc.ca/protect/

Your presence in the belugas’ habitat can attract their attention and reduce the amount of time they spend looking after their young, feeding, and resting. Belugas need space and a peaceful environment.

WHEN IN THE PRESENCE OF BELUGAS, DO NOT STOP.

MOVE AWAY WHILE MAINTAINING A DISTANCE OF AT LEAST 400 METRES.

Every action counts to help protect the belugas.

Show you care, keep your distance
WHALE WATCHING FROM SHORE

Keep your eyes peeled and your ears open while out walking, biking or driving along the Marine Park’s shorelines! You might well glimpse or hear beluga, minke or fin whales, or possibly harbour porpoises, as they swim along the coast. There are surprises in store for you from Baie-Sainte-Catherine to Les Escoumins, with Sacré-Cœur in between. See the Discovery Network section (pages 12 to 15).

WHALE WATCHING BY BOAT

What fun it is to hear a whale blow or to catch a glimpse of one of these incredible animals at the surface! Take in the fascinating spectacle of marine animals from aboard a boat. Get ready for a journey to the kingdom of whales, seals and seabirds. Select the type of excursion that suits you best. See pages 8 and 9.

EXPERIENCE THE SEA

Get in sync with nature by choosing an outing of several hours or several days, with a guide or on your own. You will contemplate the scenery from a different perspective aboard a kayak, a sailboat, a shuttle or while scuba diving. See pages 8 to 11.

DID YOU KNOW...?

Four migratory great whale species can be seen in the Marine Park in the summer; they are the minke whale, the fin whale, the humpback whale and the blue whale.

The beluga whale and harbour seal are the only marine mammals that live year round in the St. Lawrence Estuary. Can you tell which is which?

To learn more about whales, visit marinepark.qc.ca/get-to-know/

VISIT THE VARIOUS INTERPRETATION CENTRES AND MUSEUMS

To satisfy your thirst for knowledge, partake in any one of several activities on offer. Enthusiastic guide-interpreters and fascinating exhibits will give you valuable insights into the many facets of the Marine Park. These helpful resources tell the full story of marine life, from starfish to sharks, as well as the history of local lighthouses and Indigenous populations. Pages 12 to 15.

SPECTACULAR VISTAS AND HIKING TRAILS

Discover the numerous vantage points that border the Saguenay Fjord and St. Lawrence Estuary on foot, by car or by bicycle. Once you begin to admire the sights along the shore, listen to the crash of waves on the beach and breathe in the salt air, it won’t be long before you’ve left the daily grind behind. The Discovery Network guarantees a real change of scenery all along the perimeter of the Marine Park. See pages 12 to 15.

WHEN IS THE BEST TIME TO SEE WHALES?
Opportunities to see whales in the Marine Park are good at any time of the day from early May to the end of October. Depending on the species and their level of activity, whales surface to breathe every 15 to 30 minutes.

WHAT BOAT TO CHOOSE?
The rules governing approaches are the same for whatever type of boat you choose. Your captain will stay within regulated speeds and respect the approach distances to be maintained in the vicinity of whales. While sea-kayaking, your guide will make sure you maintain appropriate distances and navigate in complete safety.

WHAT TO BRING?
Even in summer, it is colder on the water than on land. At around 5°C, the water cools the air above the surface of the Park. Warm, comfortable clothing is highly recommended.

A GUIDED AND SUPERVISED EXCURSION
All businesses presented in this guide hold Saguenay–St. Lawrence Marine Park marine tour permits. Captains and sea-kayak guides working for these businesses must successfully complete relevant regulations training offered by Parks Canada.
The Écumeurs offer you a personalized cruise to observe whales and other marine mammals in the Marine Park. Live a unique experience with our professional captains aboard our 12- or 30-passenger vessels.

YOUR SAFETY: YOUR RESPONSIBILITY

Are you planning a seagoing activity without a certified guide? Learn the directives you will need to follow and the required equipment to ensure your outing is safe and enjoyable. Cold water, variable weather conditions, tides and strong currents can complicate your activity. Cellular coverage in the Park is incomplete. Respect your abilities; do not head out on your own. Respect the flora and fauna; keep your distance.

Stay near the coast; fog materializes quickly and it is easy to lose sight of the shore. Due to regular shipping traffic, avoid making “shore-to-shore” crossings.
